EDUCATION

Bachelor of Engineering in Computer Science, *GLA University, Mathura*   June 2025
Intermediate, SVM , Etah   May 2020
High School, SVM, Etah   May 2018

INTERNSHIP/TRAINING EXPERIENCE

JoVAC on Full Stack Web Development , Agra
Trainee

- Learnt about FRONT END and BACK END Development.
- Successfully built and launched **CRUD APP**, a full-stack application.
-

PROJECTS

Portfolio Website

- Designed and developed a responsive personal portfolio using HTML, CSS, JavaScript.
- Integrated React and Node.js for interactive user experience and performance.

Smart Genset (IIoT, C++)

- Created a smart generator system for remote monitoring and predictive maintenance.
- Utilized C++, IoT, and Thingworx platform to optimize energy efficiency.

Heart Disease Prediction Using Machine Learning

- Built a model to predict heart disease risk based on patient data.
- Used Python, Pandas, NumPy, TensorFlow, and Matplotlib for analysis and visualization.

SKILLS

- **Languages:** Python, Java, JavaScript.
- **Frameworks/Tools:** Node.js, FastAPI, MongoDB, Thingworx
- **Data Analytics:** Pandas, NumPy, Matplotlib, Power BI, TensorFlow
- **Soft Skills**: Effective Communication, Problem Solving, Team Collaboration

CERTIFICATIONS

- o Certified in Industrial IoT (IIOT) – DCS
- o Certified in Data Science – DCS

DECLARATION

- I hereby declare that all the above-mentioned information is true and correct to the best of my knowledge.
